

# Computer Softphone

**\$50 MSRP**

## Easily communicate from your computer

hellospoke's IP desktop softphone client provides business users with carrier-grade VoIP communication solutions that can be tailored to meet the needs of any size organization.

Available on Windows and Mac, the hellospoke softphone can replace or complement your desk phone, allowing you to make voice and video calls over IP, see when contacts are available, send messages and transfer files.

- Communicate quickly, clearly and efficiently in one application
- Microsoft Office integration for Windows
- 1080p video calling for 1:1 meetings and conferences
- Hyperlink preview for instant messaging
- Call History interface and feature enhancements
- Superior quality voice and HD video calling
- Messaging and presence with support for SIP and XMPP
- Multiple account configuration (up to 10 accounts)
- Contact management and click to communicate
- Secure with signaling and media encryption built in
- Custom options available for bulk purchases to further enhance the user experience
